System Certification Method - Definition

Vendor – a company which is registered as a BACS System provider and eu.bac System Partner.
If a Vendor also offers the integration of the BACS, it is also listed as System Integrator. An Auditor is needed to do a eu.bac System Certification.

System Integrator – a company (e.g. system house or vendor) installing BACS Systems
An Auditor is needed to do a eu.bac System Certification.
A System Integrator might be a part of a Vendor.

Independent Consulting Company ICC – a body registered by eubac and independent from the vendor and system integrator of a BAC System. An ICC is authorised to provide:

- eu.bac System Audits by authorised auditors
- eu.bac System trainings by authorised Auditor Trainers

Auditor - a person that has been authorised by eu.bac to perform inspections in order to:

- Assess the applicant's BACS installation to acquire a eu.bac System Certificate, or
- To do the periodic inspections of a eu.bac Certified System to acquire a eu.bac System Proof of Inspection

An Auditor is an employee of a Vendor, System Integrator or an Independent Consulting Company.

Auditor Trainer - a person that has been authorised by eu.bac to train Auditors

An Auditor Trainer is an employee of a Vendor, System Integrator or an Independent Consulting Company.
